⁽¹⁾ Variable rate security. The rate reported is the rate in effect as of September 30, 2023.

⁽²⁾ Variable rate security based on a reference index and spread. The rate reported is the rate as of the last reset date in effect as of September 30, 2023.

⁽³⁾ Includes securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional buyers. At September 30, 2023, the value of these securities totaled \$110,488,215, which represented 4.08% of total net assets.

⁽⁴⁾ Seven-day yield.

 $^{^{(5)}}$ Step-up bond; the interest rate shown is the rate in effect as of September 30, 2023.

 $^{^{(6)}}$ Security or a portion of the security purchased on a when-issued or delayed delivery basis.

Baird Core Intermediate Municipal Bond Fund

Summary of Fair Value Exposure at September 30, 2023 (Unaudited)

The Fund has adopted authoritative fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion on changes in valuation techniques and related inputs during the period. These standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy is organized into three levels based upon the assumptions (referred to as "inputs") used in pricing the asset or liability. These standards state that "observable inputs" reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources and "unobservable inputs" reflect an entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. These inputs are summarized into three broad levels and described below:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Unobservable inputs for the asset or liability.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of September 30, 2023:

	I	evel 1	Level 2	Lev	vel 3	Total
Long-Term Investments			 			
U.S. Treasury Security	\$	-	\$ 24,491,211	\$	_	\$ 24,491,211
Municipal Bonds		-	2,665,171,130		-	2,665,171,130
Total Long-Term Investments			2,689,662,341			2,689,662,341
Short-Term Investments						
Money Market Mutual Funds		3,757,036	-		-	3,757,036
Total Short-Term Investments		3,757,036	_		_	3,757,036
Total Investments	\$	3,757,036	\$ 2,689,662,341	\$	_	\$ 2,693,419,377

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the reporting period, as compared to the security classifications from the prior year's annual report.
